Nir Mendelson

Entrepreneur and AI builder with hands-on experience creating full-stack, AI-powered products from idea to deployment. Passionate about rapid experimentation, solving real-world problems with LLMs, and working across teams to turn prototypes into impact. Looking to bring product-thinking and technical creativity into an innovation-driven role.

EXPERIENCE

Founder & CEO – Rubybeam   2024-Today

- *Built an AI agent that helps influencer agencies close more sponsorship deals by generating hyper-personalized brand pitches using LLMs*
- *Developed full-stack system (Python, React, Node.js); deployed on Azure and AWS using AI-first workflows (ChatGPT, Cursor, Sora)*
- *Raised 100,000 NIS from Cactus Capital VC as their first solo-founder investment*

Founder & CEO – Enty   2023-2024

- *Created a platform for investing in up-and-coming YouTubers, enabling creators to raise funds by offering revenue-sharing deals*

MILITARY SERVICE

Special Operations Intelligence-Project Manager   2020-2022

- *Led strategic projects across multiple units; coordinated high-pressure execution and briefed senior leadership*

Special Operations Intelligence-Head of Visual Intelligence Team   2018-2020

- *Managed 5-person team in mission-critical visual ops; delivered intelligence to high-ranking officers under tight deadlines*

EDUCATION

B.A. Information Systems Management   2022-2025
Ben Gurion University of the Negev

- *Built an AI-powered shared delivery platform as final project – developed full-stack system that consolidates grocery store delivery orders*
- *GPA of 85*
